

COMMUNITY EDUCATION

Nationally and internationally renowned surgeons train local physicians and therapists on cutting edge surgical techniques. Sessions included lectures and hands-on cadaver surgeries on topics such as: diagnosis and treatment of hand arthritis, correction of wrist instability, surgical reconstruction and rehabilitation techniques for ankle tendon injuries, and reconstruction of damaged nerves.

INNOVATIVE RESEARCH

Pioneering new robotic resting technologies for joint replacements of the shoulder, knee, and hip while conducting nearly 40 clinical trials on diseases such as Alzheimer's disease, multiple sclerosis, osteoarthritis and persistent back pain.

WE NEED YOU - BECOME AN VOLUNTEER!

Our MVP Program (MORE Volunteers for Patients) teams volunteers with medical assistants and other healthcare professionals to facilitate and enhance the patient experience by providing support and assistance with the visit.

We are looking for volunteers that are "Good with their Hands" to help us assemble and test prosthetic hands created under our Helping Hands program.

Volunteer to participate in, or better yet lead, a community fitness bicycle ride designed to keep kids in motion.

If you are interested in volunteering please reach out to us at info@more-foundation.org

A SPECIAL THANK YOU

Thank you from the entire More Foundation board of trustees and staff to all of you, our supporters.

We are extremely pleased with the great work being accomplished for the communities that we serve! We need your help to keep MORE in motion.

Please consider making a tax-deductible donation today to make our mission a success.

MORE Foundation

A Year of Expanded Programs and Exceptional Growth

Our Mission:

Empowering individuals to *Keep Life in Motion*® through innovative research, community education and charitable assistance.

Our Vision:

A world full of active people

MORE Foundation
MUSCULOSKELETAL ORTHOPEDIC
RESEARCH AND EDUCATION

CHARITABLE ASSISTANCE

Helping Hands: Through a partnership between MORE Foundation and e-NABLE Foundation, we will be able to use rapid prototyping 3D printing technology to “print” custom prosthetic hands for children in need - at no cost to the recipient.

Pedals to the Medals: Will Keep Life in Motion for children and veterans. Building on the experience and expertise of the MORE Foundation Cycling Team, we will be restoring donated and used bicycles, providing them to kids in need, leading community fitness rides, teaching bicycle safety and sports nutrition, and encouraging a healthy lifestyle. This will culminate in a veterans charity race: Ride to Recovery.

Veterans Transportation and Assistance Program (V-TAP):

The MORE Foundation's V-TAP has funded over 170 medical transportation rides for veterans in the community. The program has largely been supported by the generosity of The Core Institute's staff through the purchase of R.E.D. (Remember Everyone Deployed) shirts. Through our partnership with Quality Transport Services, 100% of the proceeds from the sale of these shirts go directly to the transportation of veterans to and from appointments. Rides are free of charge.

See some of the heartwarming testimonials we have received below!

Heartwarming V-TAP Testimonials:

- Transported homeless Veteran and spouse living without electricity and running water for 18+ months to various medical and HUD appointments to claim housing benefits.
- Veteran in Hospice care needed transport to medical appointments that were not covered and he was unable to pay out of pocket.
- Transported a Veteran to Hospice when the family could no longer care for him and made it possible for the wheelchair bound spouse to visit him.

MORE V-TAP Testimonials

- Veteran whose illness prevented him from leaving his home was able to get to the doctor, pharmacy and store for shoes. QTS driver was able to coordinate purchasing his shoes, as he no longer owned a pair.
- Veteran and his Spouse utilized V-TAP so they were able to get the urgent medical care he needed versus waiting until he was admitted through the ER.

The CORE Institute staff get a break from their usual business and clinical attire on selected “R.E.D. Shirt Fridays” to show their support for our deployed troops.

Purchase your R.E.D. shirt today!
Contact us at info@more-foundation.org to place your order or the website More-foundation.org

Without all of you this would not have been possible!
